JDM LED Lighting

Luxer1 Style Xenon White/Ultra Blue Room Panel Lights

Each Luxer1 style LED Panel is measured 1.25 (length) x 0.78 (width) x 0.25 (thickness) inches; There are 12 high power SMD Xenon White or Ultra Blue LED bulbs on each LED panel. The LED panel comes with two types of sockets (T10/T15 and D31mm) which will fit most DE3175, DE3022, 158, 168, 194, 2821 or 2825 housings. The back of each LED panel is self-adhesive, designed for easier installation.

JDM 12" Flex LED Strip Lights

JDM 12inches (30cm) long 15LED Flexible and Waterproof LED strips (2 pieces) available in Xenon White, Ultra Blue or Brilliant Red.

The LED Flexible Light strips are 12 inches (30cm) in length, self-adhesive with 15 high power micro LEDs and are also waterproof. They are great for lighting up your car interior especially around your speedometer, clocks, speakers, amps, side doors, windows, etc.

JDM H3/H11/9005/9006 Hyper-Flux LED Bulbs For Fog Lights, High Beam or Driving Lamps

Xenon white high power FLUX 36-emitter 12-LED H11/9005/9006 or 24-emitter 8-LED H3 LED bulbs. This LED bulb is designed for direct replacement for the stock 55W halogen fog lights, driving lights, or high beam lights with a low power consumption LED. There is no modification needed, purely Plug-N-Play.
